IDLING STOP SYSTEM

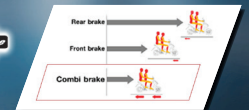

Automatically switches off the engine during traffic or short stops to eliminate unnecessary fuel consumption

Honda's Smart Technology is a collection of innovative features that enhances safety, performance, and contributes to excellent fuel efficiency.

The CLICK125i was the first model to be equipped with eSP, Honda's 125cc global engine for scooters, which boasts improved durability, quietness, and high fuel efficiency.

Perform proper braking with ease. By pulling the left lever, the brake force is proportionally distributed to the front and rear brakes.

LIQUID-COOLED PGM-FI ENGINE

This revolutionary, liquid-cooled engine of the New CLICK150i and CLICK125i is first of its class. A brilliant combination of power and fuel efficiency for a solid and competing ride experience.
